ASSEMBLY				
	Creo: Basics of Assembly			
	Creo: Basics of Large Assembly Concepts			
	Creo: Assembly Productivity Tools			
	Creo: Managing Large Assemblies			
	Creo: Assembling with Non-Kinematic Constraints			
	Creo: Assembling with Kinematic Connections			
	Creo: Evaluating Kinematic Connections – <i>Retiring December 2021</i>			
	Creo: Managing Assembly Styles and States			
	Creo: Using Assembly Skeletons for Top-Down Design			
CABLING				
	Creo: Creating Harnesses and Routing Cables 1			
	Creo: Creating Harnesses and Routing Cables 2			
DOCUMENTATION				
	Creo: Basics of 2D Drawing			
	Creo: Populating 2D Drawings with Annotations			
	Creo: Creating and Modifying 2D Drawing Views			
	Creo: Adding 2D Drawing Information Using Tables			
	Creo: Managing the 2D Drawing Environment – <i>Retiring December 2021</i>			
	Creo: Creating Annotations Using Model-Based Definition			
	Creo: Modifying and Publishing Annotations Using Model-Based Definition

Multi-day Classes

Multi-day classes provide students with a more traditional classroom experience. Courses may include up to five days of content to accelerate your learning process. You'll work alongside your world class instructor either virtually or on site in a public training environment.
